Plan of Action: Being that this company has a career section on their main site, I would apply directly through there and not indeed. Unfortunately, they do not have any HR staff listed in their team section. But I was able to find their HS Business Partner, Ashley Maennle, through LinkedIn who is also connected with Kieth Kritselis.

Plan of Action: Being that this company has a career section on their main site, I would apply directly through there and not indeed. Unfortunately, they do not have any HR staff listed in their team section. I am able to find a number of employees listed in Indeed, but none of them are specifically HR or seem to be part of the web development team. I may reach out to a manager to try and find the correct person to speak with.

4. Giddy - Austin, TX

Posting: Front End Web Developer

Posted on: Indeed.com

Contact: Online Apply Only

Plan of Action: This position only has an online application through Indeed.com. But I am able to find a number of employees listed in Indeed, but none of them are specifically HR but there are a couple web developers listed there with a shared ACA connection. I may reach out to one of them for more information about the hiring manager.

Plan of Action: Being that this company has a career section on their main site, I would apply directly through there and not indeed. Unfortunately, they do not have any HR staff listed in their team section. But I am able to find a number of employees listed in Indeed, and although none of them are specifically HR but there are several junior and senior web developers listed there. I may reach out to one of them for more information about the hiring manager.

Plan of Action: Being that this company has a career section on their main site, I would apply directly through there and not indeed. Unfortunately, they do not have any HR staff listed in their team section. I am able to find a number of employees listed in Indeed, but none of them are specifically HR. Almost all the staff listed here are recruiters and many of them are based in India. The operations manager has a posting for needing a new HR manager. I don't know if this listing would be beneficial to follow up on further.
